

# X-TANK

## Hydroponic systems

4 pots

8 pots

10 pots

16 pots

20 pots

The X-TANK is an active hydro system offering the precision and control of hydroponic feeding combined with the flexibility of growing in pots. Inspired by drip irrigation the X-TANK is the most versatile system on the market. Pots are placed on a support tray that rests on a nutrient tank and periodically nutrient solution is delivered to each plant through a dripper to each pot. So for those of you who chose to grow in pots you can now save yourself hours and hours of work and automate your feeding. If you don't want to grow the number of plants supplied with the system simply remove some of the pots! There is a choice of 5 sizes and each one is supplied with a choice of drippers making them compatible with any media you want to grow in.

### Why use an X-Tank System?

- Effortless setup and automatic feeding saves hours of work
- Excellent drainage whatever medium is used
- Easy pump access for maintenance and monitoring of nutrient solution
- High quality pots are ideal size and reusable
- Self-contained system greatly reduces chance of leakage
- Comes with a selection of drippers suitable for any medium

### 4 POTS MINI

DIMENSIONS (CM)	60x60x50
TANK	45L
SUBSTRATE*	Hydrokorrels
POTS 18x18x23 - 6.5L	4
PLANTS (MAX)	4

### ACCESSORIES

Dripper autocompensate 2L/h

\* Raccomended

### 8 POTS BASE

DIMENSIONS (CM)	120x60x50
TANK	95L
SUBSTRATE*	Hydrokorrels
POTS 27x32x25 - 16L	8
PLANTS (MAX)	8

### ACCESSORIES

Dripper Support

### 10 POTS BASE

DIMENSIONS (CM)	120x60x50
TANK	95L
SUBSTRATE*	Hydrokorrels
POTS 18x18x23 - 6.5L	10
PLANTS (MAX)	10

\* Raccomended

### 16 POTS MAXI

DIMENSIONS (CM)	100x100x50
TANK	180L
SUBSTRATE*	Hydrokorrels
POTS 22x22x26 - 11L	16
PLANTS (MAX)	16

\* Raccomended

### 20 POTS MAXI

DIMENSIONS (CM)	100x100x50
TANK	180L
SUBSTRATE*	Hydrokorrels
POTS 18x18x23 - 6.5L	20
PLANTS (MAX)	20

### ACCESSORIES

Water Pump Sicce MICRA 430 L/h

### ACCESSORIES

Square pot
